-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Claims

Claims 1-8 and 26-34 are pending.

Claims 26-34 are allowed over the cited art of record.

This is in response to applicant's amendment filed on 02/01/10.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 remain rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent number 5,312,833 and citing Vadhan-Raj et al., as supplementary evidence of what '833' discloses for the reasons set forth in the previous office mailed on 10/07/09.

Response to Amendment/Remarks

Applicant's arguments filed on 02/01/10 have been fully considered but they are not deemed persuasive. Applicants argue that the Examiner has not established that the prior art cited specifically target patients in need of increased platelets. In response, the cause of the disease or condition to be treated is noted. Applicant should note that the cited art does not have to teach or disclose targeting the same patient population with the disease condition applicants assert, because applicants are simply using a known compound to induce or influence or trigger a reaction (platelets formation with known compounds) in patients in need of such results. In the instant case, the

examiner has determined the populations overlap. Note the Pavithran reference cited in the previous office action which teaches that thrombocytopenia increases the risk of bleeding which means thrombocytopenia caused by surgery or gastrointestinal bleeding can be treated by the prior art compound. The cited art can be used to treat any and all listed conditions enumerated in claim 1. See lines 7-8 in the first paragraph of Pavithran "The term "thrombopoietin" was first used by Kelemen in 1958 to describe the humoral substance responsible for increasing platelet production after the onset of thrombocytopenia".

Note xanthocillin X dimethylether administered is in the range of 10-3,000 milligrams per day for adult patients, which falls within the formulations on pages 50-52 (formulations 1-5) of the current specification. It is noted that applicants have not argued that the prior art is disclosing a totally different compound. Again, intended use of a known compound which would be is not given any patentable weight.

Thus, for the reasons of record, claims 1-8 remain rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
